

Music Therapy Associates has been providing music therapy sessions, musical entertainment, and music lessons to individuals and groups of all ages and abilities since 1990.

MTA's approach emphasizes coordination of services with doctors, therapists, and other health professionals, as well as caregivers and family members to promote continuity of care.

Common Questions

When/where do music therapy sessions take place?

We travel! Sessions take place wherever you choose, including senior care facilities, a client's home, church, day program or our studio, during the day, evening or weekend.

What payment methods are accepted?

We accept private pay in addition to most insurance plans. Grant or FSS funding may also be available.

Do clients have to be musicians?

No musical experience is required! Our therapists customize each client's care plan to suit their needs, interests and abilities.
